

FalseType

```
classDiagram
    class FalseType {
    }
    class ros_message_traits["ros::message_traits"] {
        ::HasHeader< ::common
        ::PointCloudSensor_< Container
        Allocator > const >
    }
    FalseType <|-- ros_message_traits
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has three empty rectangular compartments below the name. Below this box is a blue arrow pointing upwards, indicating inheritance. The arrow points to a larger class box for 'ros::message_traits'. This box is divided into three horizontal sections. The top section contains the text 'ros::message_traits', '::HasHeader< ::common', '::PointCloudSensor_< Container', and 'Allocator > const >'. The bottom two sections are empty.

ros::message_traits
::HasHeader< ::common
::PointCloudSensor_< Container
Allocator > const >
