

FalseType

```
classDiagram
    class FalseType {
    }
    class SpecializedClass {
        ros::message_traits::HasHeader< ::common::EgoPointClouds_< ContainerAllocator > >
    }
    SpecializedClass --|> FalseType
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has a single compartment for the name and two empty compartments below it. Below 'FalseType' is a larger, shaded class box. This box has three compartments. The top compartment contains the text 'ros::message\_traits::HasHeader< ::common::EgoPointClouds\_< ContainerAllocator > >'. The bottom two compartments are empty. A blue arrow with an open triangular head points from the top of the shaded box to the bottom of the 'FalseType' box, indicating inheritance.

ros::message\_traits  
::HasHeader< ::common  
::EgoPointClouds\_< Container  
Allocator > >
